In Reference to Schooling as a Medical Expense for Little C8j

Our son Little C8j was diagnosed with Autism by Dr. Seuss of The Nice Kids Hospital in Ottawa, and the CRA has accepted this diagnosis as a mental disability (please find attached the supporting CRA documentation).

This letter is to support our request to have his school fees treated as a medical expense. We enrolled Little C8j in the Good School for 2011, instead of our local public school, as we felt the school better addressed his needs as a child on the autism spectrum.

\*\* Here is where you include your reasons why the school serves your child's specific needs in point form \*\*

Our concerns about Little C8j's sensory, behavioral and educational needs that we felt could not be addressed in the regular school system:

The Reasons the Good School was our choice for his schooling:

- Reason 1
- Reason 2
- Reason 3

For these reasons we would like to request a reassessment of our 2011 and 2010 income tax returns (specifically for Big Cajun Man) and have the associated School Fees be included as Medical Expenses for these returns.

- The Fees Paid for 2010 were: \$xxxx.xx
- The Fees paid for 2011 were: \$xxxx.xx
- (see attached receipts)

Best regards,

Big Cajun Man and Mrs. Cajun Man
